NO!You are completely wrong and you know it. As you deliberately confuse the role of a security official with the role of an oppositionist,I have nothing more to comment on. You also use the propaganda of the Russian government with the sentence"Arrested in Russia work for West"

It's not true. Please investigate further how the authorities of the Republic of Serbia have admitted guilt. It was the Serbian security structures that made this act to blame the Albanians.

Yes, "everything" is a lie, maybe even that, Serbian dug up cemeteries and broken Serb monuments. Whenever Serbs go to a cemetery in #Kosovo and Metohija for a religious holiday of remembrance, they find broken monuments 😔
The EU is pretending that there
That's the problem 😕

As long Serbia with its paramilitary units and secret service has killed young Serbs blaming Albanians and internationals as in the case of Panda in Peja, for Vucic the least problem would be to damage the graves of Serbs in Kosovo to blame the others!

Ok so let me see if I got this right. when Albanians leave Kosovo that's ethnic cleansing and genocide

When Serbs leave Kosovo, it's people leaving of their own free will and returning to their homeland (even though they have lived in Kosovo since medieval times)

Albanians fled their homes after being systematically subjected to state violence. They were forcibly removed from work, schools, hospitals, etc. They were beaten, killed, raped, massacred, etc., and eventually evicted from their homes.

Yes but all Albanians returned to Kosovo Whereas Albanians forced Serbs to leave Kosovo, stole their property burned their houses down or settled in them and do not allow them to return Those few who come are subject to physical violence and property destruction every day

There is a disturbing tendency I'm noticing lately on Russia's state TV: referring to Americans and Ukrainians as "dogs." Dogs that bark, bite, need to be put to sleep, need to be hit with a stick, etc.

Also, denigrating US participation in WWII: "All about lend-lease & profit."

This is clear evidence of the lack of Russian arguments against the West. It also shows their aggressiveness after exposing their propaganda and scenarios from the west.

Russia can continue to do what it knows best: to lie endlessly, but one thing is clear: Russia can not change history. Without US engagement, WWII would have another end and the world would look different, moreover Russia would not exist at all.

After referring to the US as the wolf and Russia as an innocent lamb, RT's editor-in-chief Margarita Simonyan again argued on state TV that #Russia must take Donbas

She's asked: "Are you for a military solution?"

Simonyan answers: "There is no other way."

The circumstances are unusual. Following the revelation of Russian stagings, which would be used as a pretext for war, it seems that Russia could use pretexts such as attacks in Moscow to start the war in Ukraine.

It's a lie and you know it. That's why you're a clown. It was not administered by the UN as Kosovo* is not a member. Just by US / UK. Also most countries did not recognise it, some of the EU members as well. So stop spreading bullshit and I'll not waste my time with you

1

Daniel Smith @Daniel518352008 18h

"Lie" "bullshit", "time", those are you arguments you have. Kosovo was under UN administration (UNMIK). 117 countries recognize Kosovo. Only 5 EU members dosent recognize Kosovo. So read and stuy more and dosent spread propaganda, fake news ane false narratives🙂

According Resolution 1244 Kosovo is part of Serbia and its recognization as a state by anyone is illegal

It's not true. Resolution 1244 refers to Yugoslavia which does not exist today. The ICJ decision in favor of Kosovo's independence also confirms that this resolution has not prevented Kosovo's declaration of independence and is in accordance with international law.

If you know with 100% certainty that Putin plans to go all in with his invasion, then you deploy all of your sanctions now. If you dont know with 100% certainty then you can still hope that the threat of sanctions might still change his calculus (Im highly skeptical of that.)

Those who warned, for years, that Putin was no "rational actor" nor merely a self-serving kleptocrat but a militant ideologue were right all along.

NATO et al cannot afford to "re-learn" this lesson w/ Russia's allies Milorad Dodik in BiH and Aleksandar Vucic in Serbia

The international community should be prepared to impose tough sanctions on Dodik and Republika Srpska on his support for Putin. Russia may try to destabilize Bosnia by increasing the map of danger to the West in the Balkans as well.

After a string of communist wins around the world in the 1970s, Brezhnev overreached in Afghanistan. We know how that ended. Putin too has had a string of military wins: Chechnya 1999, Georgia 2008, Ukraine 2014, Syria 2015, but this 5th war also seems like an overreach

It's notable that we're not seeing any images/videos coming from the Russian MoD showing combat operations/missile strikes on targets in Ukraine. It's likely Moscow doesn't want to further antagonise Ukrainians whose support will make it easier when seeking a political solution.

Presidential press sec says Ukraine has agreed to have talks with Putin. Right now, the sides are choosing the time and the place

I most dearly hope they're doing it right

The Russians are either inflicting heavy losses or are playing a strategy of "legitimizing" their actions and acting similarly again after a few years, when Putin's power is threatened again.

Ukrainian civilians and soldiers are being killed defending their country and the invading Russian and separatist forces. Again for Serbia, the death of both the victims and the aggressor is a tragedy.

How can you have brothers both aggressor (Russia) and victim (Ukraine) at the same time?

a) This is the first point out of 10

b) How can EU claim to support both Serbia and Kosovo* if both entities are de facto in a state of cold conflict?

It's perfectly possible to care for different nations without supporting their conflict

Wrong comparison. The EU is an organization composed of member states that decide on foreign policy by consensus, while Serbia is the only country which, although it must decide similarly to the EU, decides as Russia wants.

The diplomatic language in these cases must be more precise: it opposes, it condemns, it does not support.

Ukraine has shown bravery in resisting Russian military aggression. Now you need to show wisdom by increasing vigilance against Russian hybrid and sabotage attacks in Ukraine.

If Ukrainians don't awe and inspire you, I'm not sure much can. The courage, resilience, strength, and dignity Ukrainians continue to demonstrate is the stuff of legend. Putin always misjudges this - he doesn't seem to realize is that Ukrainians are not Russians.

True. Moreover, Putin fears that a strong, developed and democratic Ukraine will be a reflection for ordinary Russians of how they want to take their place and overthrow Putin.

Putin does not care about the lives of Russian soldiers and their families, who are being sent to certain death in Ukraine. Ordinary Russians must rise up against Putin as long as he does not wipe Russia off the map, just to stay in power.

Dodikom

Dana 28. februara na inicijativu bosanskohercegovačke strane održan je telefonski razgovor Ministra vanjskih poslova Ruske Federacije Sergeja Lavrova sa članom Predsjedništva Bosne i Hercegovine iz reda srpskog naroda Miloradom Dodikom.

Obavljena je razmjena mišljenja o implementaciji dogovora nastalih nakon sastanka Predsjednika Ruske Federacije Vladimira Putina i Milorada Dodika u Moskvi u decembru 2021. godine. Zacrtani su koraci za intenziviranje napora u tom pravcu.

Ponovo je potvrđena zajednička opredijeljenost za striktno poštovanje Dejtonskog sporazuma o Bosni i Hercegovini, suzbijanje sve prisutnijih pokušaja da se principi sadržani u njima i odobreni od strane Vijeća sigurnosti UN-a preinače kako bi odgovarali EU i NATO-u i na štetu naroda Republike Srpske.

I highly doubt it.

The nature of events is changing. Russian invaders are trying to at least somehow maintain the fighting capacity of their units. But it gets worse and worse.
This is evidenced by the repeated facts of the surrender of groups of Russian soldiers with officers. And also refusing to go on with the offensive.
In Russia, relatives of prisoners and dead begin to protest. The total lie of Russian propaganda gives cracks.
The enemy was afraid of direct contact with Ukrainian defenders and defenders. Therefore moved to the criminal tactics of distance shelling of peaceful cities.
Air strikes and rockets from the territory of Russia and Belarus across residential homes and schools, shelling from Izium maternity homes, is the cowardly behavior of those who have no honor. It's not the military, it's terrorists, representatives of the terrorist state. And that's Tavro for a long time.
The enemy viciously fired at peaceful Zhytomyr. It's from the fear of an attempt to take revenge for the successful completion of the 95th Brigade task in the AFO. The occupants were targeting the brigade barracks and the residential houses nearby.
Attacks on women and children of our warriors. The Kremlin will not achieve the result it seeks.
Now from Russian terror suffers many of our cities and villages, but if not the most - Kharkiv, Mariupol and Kherson.
This is unnecessary proof that no "Russian world" exists. There is a Nazi ideology in the head of a bunch of maniacs who still hold power in Russia.
And there are Ukrainian citizens who speak different languages, go to different churches and prayer houses, together make heroic resistance to Russian occupants.
And we will win for sure.
Yesterday I had a lengthy conversation with U.S. Secretary of Defense Lloyd Austin. Even the experienced American military admires the professionalism of our defenders and the resilience of our people.
The amount of help we are receiving is increasing. The number of countries providing this assistance is growing. Even those for whom it was considered impossible are joining.
Ukraine has already arrived and become on combat standby new Bayraktar. More stingers and javelins to come.
Europe is turning into our back and supplies critically needed defense. We are at the forefront of the free world.
I am proud of everyone who is defending their home from the Russian crowd today.
I bow to those who gave their lives.
After the victory, we will honor their memory, so that and over the centuries Ukrainians honored the heroes of Gostomel, Kherson, Chernihiv, Sumy, Hapsiness, Volnovakh, Kharkiv, Mariupol, Okhtyrka and other cities, as we honor our heroic ancestors, starting from the literal, ancestors.

Ukrainian Special Operations Force vows to identify and assassinate all Russian artillery servicemen responsible for their indiscriminate attacks on civilian targets "Each and every gun crew will be slaughtered like pigs."

Братство ССО Украины передает привет русским артиллеристам'

Мы вас поздравляем: после того как вы накрыли жесточайшими обстрелами наши мирные города наших родных, детей близких вы, черви стали нашей целью номер один

Объясняем вам, Ваньки вы вроде бы далеко и стреляете по целям которых не видите Не видите маленьких деток стариков, дома детские садики школы и больницы все это для просто цели. Стельнули, полетело попали за*бись, правильно пацань?

А теперь смотрите, червяки вы своих целей не видите и вам оттого вроде бы как легче. Но поверьте легче вам мразям уже не будет никогда. Информация по вам уже у нас А если по кому то еще нет, то это вопрос считанных минут

Отныне никаких пленных руских артиллеристов больше не будет Никакой пощады, никакое "пожалуйста не убивайте я сдаюсь" уже не пройдет

Каждый расчет неважно командир водитель, наводчик, заряжающий - будут зарезаны как свиньи Ссыте в штаны, мы за вами уже пришли

Serbia, with Vucic and Putin ally, is not only against the West but against Serbia itself. There is no bigger nationalist than a part of the Serbian people and their criminal elite. This was evidenced by Milosevic's crimes in the former Yugoslavia and Vucic's support for Putin.

Right. Behind these protests held in Serbia in support of Russian aggression against Ukraine, stands Vucic with his groups, who use them to stay in power. As support and thanks to Putin, as pressure on the West for the April elections in Serbia

It's its President, Aleksander Vucic, who, through his close cooperation with Russia and control of the media, has increased pro-Russian and pro-Putin sentiment in Serbia. He is the real organizer of this protest in support of the aggressor.

Russia's desperation is showing. 11 days ago they launched a criminal war claiming to be liberating Ukraine from "Nazism." After that narrative collapsed amid massive popular opposition to their invasion, Kremlin officials and proxies are now trying to fabricate a nuclear threat

> **Julia Davis** @JuliaDavisNews
> #Russia's state TV propagandists are already "predicting" that they will find documents proving that the Ukrainian government was building a "dirty nuclear bomb" at the Zaporizhzhia nuclear plant, meaning the Russians are creating some fake docs right now

Talking to a Russian ambassador isn't any evidence of Vucic being behind the pro Russiam protest. He publicly condemned the invasion and Serbia voted against it on that UN thing held a few days ago

Among other things, it is an open distancing from the pro-Ukraine protest today. While Serbia has not imposed any sanctions on Russia in any area.

Respect for the bravery of Ukrainians defending their homes. The Ukrainian couple kicked out the Russian soldiers as if they were chickens or street puppies.

This is a weird take, cos I believe the soldiers with their automatic weapons acted civilized

If you find it "civilizing" to invade a sovereign territory, forcibly open the door of a house, enter private property without permission, intimidate the occupants of the house with a weapon and shoot in the air with a weapon, then I have no comment.

1

Andy Showman @mchemsley 7m

I mean, the country you live in has been invading for years and centuries and you have had no issues with that however my point is on the soldiers who had the decency to leave, unlike some soldier who just dismantles anything on sight

Putin with this act acknowledged the shame of the deep loss of the Russian army in Ukraine, he showed the fear of facing his trial for war crimes as well as his desire to spread the Ukrainian war in the world.

A total boycott on Russian oil and gas could end the war. If oil and gas were boycotted it would hit Russia so hard that Russia might agree to a ceasefire which could end the killing of Ukrainian civilians. Russian oil and gas have to be boycotted

I agree. Only harsh and complete sanctions against Russia, which affect the entire Kremlin elite, Putin's oligarchs, but which do not exclude the Russian people either, can have an impact on the immediate cessation of hostilities in Ukraine.

Russia is trying to divert attention from the deep losses in the Ukraine war. By fueling tensions in various forms in Europe and the Balkans, Russia is trying to create new hotbeds of crisis in the world.

Russian military aggression in Ukraine is a violation of international law, as it is an attack on a sovereign state. Yugoslavia was at war waged by Slobodan Milosevic, who carried out ethnic cleansing and genocide against non-Serb peoples. You can not confuse the facts!

It's a completly false accusation. First of all, no oligarchs are using regular flights they have their own planes. Second, there are plenty of ways for Russians to leave the country if they want to, most notably to Turkey, Gulf countries, or China.

The oligarchs can not fly their planes, due to sanctions from third parties. Second, Russians cannot enter the EU through Turkey, China or the Gulf countries because of visas.They use Serbia's fragile borders as a springboard to the EU,as Serbia is surrounded by several EU memb.

The Council demands that the Government of the FRY take immediate steps to ensure that those responsible for this massacre are brought to justice. The names of those who participated in the killing and those who gave the orders must be divulged and they must be handed over to the ICTY for prosecution if requested.

Milosevic must comply with all his commitments to NATO and to the OSCE which are based on UNSC Resolution 1199.

The FRY must bring VJ and MUP force levels and posture into compliance with its commitments to the Alliance last October. As the signatory of this agreement, President Milosevic is responsible for ensuring that these force levels are respected. He is also personally responsible for the behaviour of his security forces.

The North Atlantic Council received briefings from the Chairman of the Military Committee and SACEUR on the military situation and on the status of NATO planning. It reaffirmed that the ACTORDS for air operations remain in effect.

The North Atlantic Council has decided to send the Chairman of the Military Committee and SACEUR to Belgrade to impress upon the Yugoslav Authorities the gravity of the situation and their obligation to respect all their commitments to NATO, and to report back to the NAC. The Chairman of the Military Committee and SACEUR will also reaffirm NATO's support to international efforts to bring peace to the region, including by the United Nations, OSCE and the European Union.

Exactly. Serbia, as a candidate country for EU membership, must be clearly defined, if it corresponds to European values or declare publicly as well as actions, that it openly supports Russia. The EU should not fall into the trap of Vucic, Putin's closest ally.

With his crimes against Ukrainian children, women, civilians, and the bombing of entire hospitals and cities, Putin has surpassed his spiritual father, Hitler. We wish Putin the same fate and end as Hitler. While Russia should be treated like Nazi Germany.

Exactly. What does the EU need a country like Serbia which appears to be closer to Russia and Eastern values than to the EU and Western values. Vucic has openly flirted with Putin and the EU must not allow itself to be deceived by him.

The correct question should be Why does EU want Vučić & his regime, if he apparently wants Putin? Vučić s not Serbia like Putin is not Russia. Therefore why doesn't EU give strong support to pro-European & democratic forces in my native Serbia? They ex st so need support NOW!

Vucic is deceiving the EU that if they do not support him,the elite in power in Serbia will be more pro-Russian than he is.The West should not fall into the trap of Vucic and any pro-Russian political, criminal and pro-Russian elite in Serbia,whether in position or in opposition.

More than a million people died in Yugoslavia during the Nazi occupation. I think you should respect and appreciate our slightest effort to remain neutral However you are now fighting for the Nazis and believe that it is not easy for us to remain neutra

To call Ukrainians Nazis just because they want their country to be independent, free and a member of the EU and NATO is not neutral at all. This is the pretext that Putin is using to kill Ukrainian children,women and civilians.While you are supporting it. Shame on you as human.

Your defense minister is a big pro-Russian, his word is, Putin's word. He is a big liar. This is exactly the language of someone (serbian) who has no arguments. Bad for a woman with such language. Shame on you.

Vucic is deceiving the EU that if they do not support him the elite in power in Serbia will be more pro-Russian than he is. The West should not fall into the trap of Vucic and any pro-Russian political, criminal and pro-Russian elite in Serbia whether in position or in opposition

Mariana Ovsyannikova, Editor at Russia Channel One statement

Marina Ovsyannikova's statement

What is happening in Ukraine right now is a crime and Russia is the aggressor country. The responsibility for this aggression lies on the conscience of only one person. This person is Vladimir Putin.

My father is Ukrainian, my mother is Russian. They have never been enemies. This weekend on my work is like a symbol of the need for Russia to immediately stop this fratricidal war. Our brotherly people can still make peace.

Unfortunately, during these past years I have working at Channel One, involved in Kremlin propaganda. I am VERY ashamed of this.

Ashamed because I allowed lies to be told from the TV screen.

Ashamed because I allowed the Russian people to be turned into zombies.

We stayed silent in 2014 when all of this was just starting. We did not go to protests when the Kremlin poisoned Navalny. We just silently observed this anti-human regime.

Right now the whole world has turned away from us. The generations of our descendants will not be able to wash off the shame of this fratricidal war.

We are Russian people. A thinking and smart people. Only we have the power to stop this madness. Go to protest. Do not be afraid. They cannot put us all in jail.

Note: Child-friendly translation

Since the act of aggression against Ukraine in 2014, Russia has systematically violated international law, including now with military aggression and the war in Ukraine. The international community must impose tougher sanctions and complete international isolation of Russia!

Putin seems so frightened, by voice, words and body language he seems to be aware of his loss, which is only a matter of time. Addressing through threats, in addition to being a sign of fear, is also a sign of the deep defeat of the war in Ukraine.

The deputy chief of Russia's National Guard, Roman Gavrilov, has been sacked.

It's a bigger deal than it sounds, because in Russia "National Guard" has a very different meaning than in America.

The Russian threat to Bosnia must be taken seriously by NATO, USA and the West. Skeptics of Russian aggression are convinced by Russia's military invasion of Ukraine. Russia intends to escalate the conflict as a strategy to overcome the loss in Ukraine. #StopRussianAggression

Obviously. Have you ever heard Putin declaring peace?

Russian President Putin appears to declare peace with Ukraine in a doctored video being shared online. The video, however, has been created using footage from last month, and a new audio track has replaced the origin

Russia and Putin can continue to think about a full-scale invasion of Ukraine only if they want to increase their losses. True, "everything is going according to plan", Russia is losing badly!

I don't think Ukraine will be far worse for Russia than Afghanistan If they are using the same tactics as they used in Syria then they would stabilize the country, keep the political structures place, and move the extremists to one location. In Syria it was Idlib.

Russia has failed miserably in Ukraine. This is best evidenced by the great loss of the Russian army in personnel, military equipment, resignations and dismissals in the Russian army and Russian secret service as well as their failure to occupy all of Ukraine for " only 2 days ".

Ukrainian soldiers had shot quite a lot of civilians and buried them in a mass grave. Fortunately, some civilians miraculously survived the shooting, and will hopefully get to testify to their experiences at the International Court of the Hague. Ivan Filiponenko is the spokesperson for the LPR militia, now more like an army "As they retreated, the Ukrainian forces used civilians as human shields, and then shot them, not wanting to leave any witnesses behind to report on their atrocities." Filiponenko told journalists that the area is now a crime scene. The fighting is still going on nearby. It clearly makes some folks in the West uncomfortable to acknowledge that the problem is not just Putin but also that his militant nationalism enjoys significant support in Russian society. The West chose to ignore the same dynamic in Serbia, which is how we've ended up w/ Vucic.

True! The #Russian people, through mass #protests against the #Putin regime, can distance themselves from his crimes and the war in #Ukraine. The same as the #Serbian people who can distance themselves from #Vucic through the April #elections in #Serbia. #UkraineRussiaWar

Unfortunately, the Serbian media controlled by Vucic,with their pro-Russian propaganda, surpass the Russian media. It is unfortunate that a country like Serbia is a candidate for EU membership and a president like Vucic plays with the West while supporting Russian aggression!

Prisons and detention centres in Moscow are full with people who have protested against Putin's war of aggression.

Once they get overcrowded, these places are usually where new resistance organizations are born.

Great networking opportunities

If the Russian people want a better future for Russia and distance themselves from Putin's war crimes in Ukraine, they should not stop their protests until Putin's ouster. His regime is as dangerous for the Russians as it is for the world!

The international community must tighten sanctions and completely isolate Russia. Ordinary Russians need to feel the effects of the war in Ukraine and Putin's crimes. If they do not agree with Putin, they should protest, if they agree, let them stay that way! #UkraineRussiaWar

These are the ruins of the Drama Theater in Mariupol, where hundreds of civilians hid. Inhuman Russian war crime. I want to ask multinational companies still working with or in Russia: how can you keep doing business with them? How can you feed, serve, and pay those who did this?

Russia's acceptance of the loss of the Black Sea Fleet Deputy Comm. as in similar cases, is evidence that Russia could use this to increase civilian crimes in Ukraine, under false pretenses. Or it could used to convince the Russian public that Putin should withdraw from Ukraine.

🚨GREAT NEWS🚨
#Russian Embassy in #Berlin with "new" address:
#VolodymyrZelenskyy Square.
Russian diplomats should be honored that the path of their embassy bears the name of a brave leader and hero of democracy!

Moskalkova called “Russophobia” a “neo-Holocaust". What do you call the killing of Ukrainian children, women and the elderly? The bombing of schools, hospitals, houses and buildings and villages and cities all over Ukraine? “Operation de-Nazification" or "Peacekeeping Operation"?

Even nuclear weapons will not save the Russian army from losing in Ukraine and Putin from losing power in Russia. Everything is only a matter of time!

Only such courage and bravery can stop Putin. The Russian people must protest en masse against the Putin regime. He can not arrest them all. Otherwise they will either starve to death in Russia or die as soldiers in Ukraine!

Seems Russian TV channels have significantly cut down on entertainment programming. Just crude ugly propaganda. They hadn't done during the Georgian war or Crimea. Combine that with the talk of "traitors", and one gets a feeling the Russians know how badly this is going for them

#Serbian Interior Minister #Vulin is the true face of #Serbia. Supporter of criminal Slobodan #Milosevic, servile and spokesman for Serbian President #Vucic. So, every time behind his pro-Russian statements is Vucic.

In neighbouring BiH, Bosnian Serb separatist leader Milorad Dodik is doing everything to prevent BiH from introducing sanctions against Russia.

At the same time, the EU and U.S. diplomats are appeasing Dodik and his enablers in an attempt "to stabilise" BiH. Good luck with that.

Following Vulin's pro-Russian and anti-Western statements in Serbia and Dodik in Bosnia, it is Serbian President Aleksandar Vucic himself. Vucic is Putin's puppet in the Balkans and Europe.

I am still surprised why so many people/media are shy to use the word "Russia" in describing what's happening "Ukraine war" "Ukraine conflict" "war in Ukraine" "Ukraine crisis" and so on. Are they afraid of calling the devil? Well, the devil is there without any calls

More than 60% of Serbs blame NATO and the U.S. for the war in Ukraine. Of course, because Russian information operations are supported by the Serbian government (and largely by the opposition sadly) via media.

STATEMENT BY SECRETARY ANTONY J. BLINKEN

March 23, 2022

War Crimes by Russia's Forces in Ukraine

Since launching his unprovoked and unjust war of choice, Russian President Vladimir Putin has unleashed unrelenting violence that has caused death and destruction across Ukraine. We've seen numerous credible reports of indiscriminate attacks and attacks deliberately targeting civilians, as well as other atrocities. Russia's forces have destroyed apartment buildings, schools, hospitals, critical infrastructure, civilian vehicles, shopping centers, and ambulances, leaving thousands of innocent civilians killed or wounded. Many of the sites Russia's forces have hit have been clearly identifiable as in-use by civilians. This includes the Mariupol maternity hospital, as the UN Office of the High Commissioner for Human Rights expressly noted in a March 3 report. It also includes a strike that hit a Mariupol theater, clearly marked with the word "children" in Russian, for children – a huge cement structure visible from the sky. Putin's forces used these same tactics in Grozny, Chechnya, and Aleppo, Syria, where they intensified their bombardment of cities to break the will of the people. Their attempt to do so in Ukraine has again shocked the world and, as President Zelenskyy has soberly attested, battled the people of Ukraine to bloody ends.

Every day that Russia's forces continue their brutal attacks, the number of innocent civilians killed and wounded – including women and children – climbs. As of March 22, officials in besieged Mariupol said that more than 2,400 civilians has been killed in that city alone. Notwithstanding the Mariupol devastation, the United Nations has officially confirmed more than 1,900 civilian casualties, including dead and wounded, and emphasizes the actual toll is likely higher.

Last week, I echoed President Biden's statement, based on the credible accounts and images of destruction and suffering we had all seen, that war crimes has been committed by Putin's forces in Ukraine. I noted then that the deliberate targeting of civilians is a war crime. I emphasized that Department of State and other U.S. government experts were documenting and assessing potential war crimes in Ukraine.

Today, I can announce that, based on information currently available, the U.S. government assesses that members of Russia's forces have committed war crimes in Ukraine.

Our assessment is based on a careful review of available information, with public and intelligence sources. As with any alleged crime, a court of law with jurisdiction over the crime is ultimately responsible for determining criminal guilt in specific cases. The U.S. government will continue to track reports of war crimes and will share information we gather with accountability partners, and information, evaluations, and organizations, as appropriate. We are committed to pursuing accountability using every tool available.

"Denazification" for Putin just means the license to kill or deport. Since the term "Nazi" does not refer to anyone in particular, it is a justification for endless war and cleansing. So long as Ukrainians resist, there will be "Nazis" to punish.

#Serbia is more likely to exclude anyone who does not ally with #Putin and #Russia or the pro-European political elite than to expel #Russian “diplomats”. In fact, they decide more on the fate of Serbia than the Government of Serbia itself!

Dz The train in which Vučić and Orban were was a double decker and the two of them were sitting on the upper platform of the train which means that the camera in th s position could not record when there are people on the platform from which the train departed.

THREAD Ukrainian army witness the level of destruction in the villages liberated from Russians. It is also about symbolic destruction. Russians defecated in the living rooms of the flats, slaughtered pigs in the houses, deliberately made houses disgusting. Why do they act so?

Even #Orban looks surprised at who Vucic was constantly greeting

If you both read my tweet carefully (and obviously you didn't) I mentioned the moment when the train left the station and the condition of the passengers on the platform from when the train departed that the camera could not record it

But how is it possible that Vucic constantly "greets people" from the train even when there were no people at all. But only roads, fields and trees ?! It's you who did not look carefully at the photos & videos!

отношении такого марьяжа

Теперь Украина снова захотела в ЕС Пуще прежнего И всё бы ничего. Наша позиция украинцам известна: если есть такое желание, вступайте, была бы честь предложена И вроде европейцы теперь тоже очень захотели Украину Только есть одна закавыка опыт последних лет с черногорией и Македонией свидетельствует, что вход в ЕС происходит не иначе, как через НАТО Это взаимозависимые организации По-европейски, политкорректно говоря, партнёры. В НАТО, как известно, командует Вашингтон. В ЕС вроде Брюссель Но в НАТО Вашингтон главный, а само это НАТО в отношениях с ЕС старший партнёр, более зрелый 1949 рождения, в отличие от ещё юного, 30-летнего Евросоюза. Поэтому Брюсселем в целом тоже командует Вашингтон хотя Брюссель и не любит в этом признаваться А потому вопрос: как вступить в ЕС без членства в НАТО? Без согласия старшего партнёра и захода в главный.. альянс Ответа нет Сегодня, получается, никак

Хотя бывает по-разному В этом контексте одна

Dmitry #Medvedev claims that #Ukraine cannot join the
EU because #Brussels is "controlled by #Washington" and it needs to be a member of #NATO to get in there. This is typical #Russian approach, it bombs, it requires talks, when you agree with them it starts all over again.

This is the result of Putin's authoritarian rule, the violent security system, and the media propaganda. But again, this does not justify ordinary Russians supporting Putin in war crimes in Ukraine. The Russians have to suffer heavy sanctions to realize that this is not a joke!

Brace yourselves for more atrocities by Putin's invaders. This is not only barbarity but impunity. They believe they will face no consequences, and it starts at the top with Putin, on down to the soldiers who did this

Михайло Подоляк @Podolyak_M

Bucha, Kyiv region. The bodies of people with tied hands, who were shot dead by 🇷🇺 soldiers lie in the streets. These people were not in the military. They had no weapons. They posed no threat. How many more

The pilot of the downed SU-34 over Izyum was captured. Of course he has something to testify about the bombing of Ukrainian villages and towns and Russia's crimes in Ukraine.

Having the preliminary results stuck at 1.95% of the vote until the final count is made public is just the kind of sketchy behavior Vučić's government has been accused of for a decade now

It's also what gets disgruntled voters out to the streets. A repeat of 2020

In developed democracies the election results are announced by the Election Commissions. In authoritarian regimes the results are announced by the dictator. This shows best for the Russian model of government in Serbia and for the manipulated electoral process!

To confirm when the bodies appeared, NYT's Visual Investigations team conducted a before-and-after analysis of satellite imagery. The images show dark objects of similar size to a human body appearing on Yablonska Street between March 9 and March 11

> **Julia Davis** @JuliaDavisNews
> Satellite images show bodies lay in Bucha for weeks, despite Russian claims, a review of videos and satellite imagery by The Times shows that many of the civilians were killed more than three weeks ago, when Russia's military was in control of the town.

Yes, but Crvena Zvezda fans are supported by the political, security and criminal structures in Serbia. Consequently their actions represent these structures and are not accidental!

This was a symbolic sports gesture in support of peace. Failure to support this action was political. Moreover, how do you expect the world to support Serbia in 1999 when it was committing crimes against non-Serb peoples in the former Yugoslavia.

Lithuania is a member of NATO so the NATO flag is their flag, there is no provocation here. Moreover, NATO has bombed Serbia to stop war crimes against non-Serb civilians in the former Yugoslavia!

The French president and world leaders are engaged in the end of the war between Russia and Ukraine through the negotiations. Their latest conversations with Putin and visits to him were in this context, unlike Vucic.

РЕПУБЛИКА СРБИЈА
СЛУЖБА ЗА САРАДЊУ СА МЕДИЈИМА
ПРЕДСЕДНИКА РЕПУБЛИКЕ

САОПШТЕЊЕ ЗА МЕДИЈЕ

Председник Руске Федерације Владимир Путин је у телефонском разговору честитао председнику Републике Србије Александру Вучићу на убедљивој победи на председничким изборима и на веома значајној победи СНС на парламентарним изборима. Он је свом пријатељу пожелео председнику Вучићу срећу и успех на одговорној дужности шефа државе и народу Србије у наредних пет година, уз уверење да ће Србија и Русија сачувати истинско пријатељске односе.

Председник Вучић захвалио је на честиткама и рекао да ће Република Србија наставити да води политику европског пута, уз очување својих искрених и традиционалних пријатељских односа са Руском Федерацијом.

Двојица председника анализирали су економску ситуацију и билатералне односе у сфери енергетике и трговинске размене која је у 2021. и у прва два месеца 2022. године забележила раст, што је добар знак даље успешне сарадње.

Председник Вучић је упознао председника Путина са тешкоћама са којима се Србија суочава приликом увоза сирове нафте и изразио уверење да ће руководства Гаспромнафта и Републике Србије, као и партнери из ЕУ, наћи излаз из такве ситуације.

У исто време председници Вучић и Путин су констатовали да дугогодишњи уговор за гас који је имала Србија истиче 31. маја текуће године, те да је неопходно у што краћем временском периоду покренути разговоре о цени, као и о другим условима набавке овог за Србију важног енергента.

На крају, председник Путин је информисао председника Вучића о догађајима у Украјини и разлозима због којих су Русија и руководство на спровођење како је председник Путин рекао, специјалне операције, а председник Вучић је изразио захвалност председнику Путину на добро познатом ставу Србије о закључке Савета за националну безбедност, изразивши наду да ће се сукоб у Украјини окончати у најкраћем периоду.

THE CHARTER OF THE UNITED NATIONS

PREAMBLE

WE THE PEOPLES OF THE UNITED NATIONS

determined to save succeeding generations from the scourge of war, which twice in our lifetime has brought untold sorrow to mankind, and

to reaffirm faith in fundamental human rights, in the dignity and value of the human person, in the equal rights of men and women and of nations large and small, and

to establish conditions under which justice and respect for the obligations arising from treaties and other sources of international law can be maintained, and

to promote social progress and better standards of life in larger freedom,

and for these ends

to practice tolerance and live together in peace with one another as good neighbors, and

to unite our strength to maintain international peace and security, and

by the acceptance of principles and the institution of methods, to ensure that armed force shall not be used, save in the common interest, and

by the employment of international machinery for the promotion of economic and social advancement of all peoples,

have resolved to combine our efforts to accomplish these aims

Accordingly, our respective governments, through representatives assembled in the City of San Francisco, who have exhibited their full powers found to be in good and due form, have agreed to the present Charter of the United Nations and do hereby establish an international organization to be known as the United Nations.

Ситуация скорее всего была примерно следующая: ВСУ запустили "Точку-У" по нашим позициям, ее перехватили наши ПВОшники в небе над Краматорском, после чего фрагменты ракеты упали на вокзал. Это отчасти объясняет сравнительно небольшие повреждения "на земле"

According to new intelligence Putin will likely order a new campaign to interfere in American politics

David Shedd and I warned about this in January. The time for threatening a strong American response is over. It's time for to respond to PsyOps

Knowing that his end is near, Putin will try to cause new chaos in various countries, including the United States. But he will fail miserably this time. This time he bought his own ticket to The Hague!

Putin has been trying to get a war going in the Balkans for 15 years
Arming the Serbs and prodding them to attack Kosovo

It's begun.

Why is Serbia freely in negotiations to join the EU?

Albin Kurti @albinkurti

For three days in a row (April 13–15) Kosova Police officers have been attacked at the border crossing point with Serbia. Yesterday & early today, a hail of bullets & a hand grenade were thrown at our police. Our sources

Very shallow tweet.Problem with Russia in Serbia is more complex Almost no body here likes Russia the way you perceive it Its more like that after humiliation from the west during 90s they fee betrayed and now they are trying to compensate that thru this sort of spite

You can not declare that almost no one supports Russia. Mass protests in Belgrade show the opposite. Every research shows that Serbs support 🇷🇺 more than anyone! Serbian media are more pro-Russian than those with Moscow. And finally, what anger is there to support 🇷🇺 crimes in 🇺🇦

Rashists do not leave the intentions to create the so-called Republic of HPR on the territory of Kherson region

In Kherson, they plan to use the scheme of pseudo-referendum conducted by the occupiers in 2014 in Luhansk and Donetsk, when instead of any manifestation of the power of the people, only a picture was created for Russian television.

According to the information of witnesses, in the typography of the city of Nova Kakhovka print "bulleteni" to hold a "referendum" Apparently, all protocols about the results of the "voting" will be prepared in advance and brought to the regional center

Implementation of the pseudo-referendum is planned from May 01 to May 10, 2022. During this period, they intend to close Kherson on entry and exit and disconnect all communication.

It will be difficult to conduct a "referendum" to the zagarbnikam, because the heroic population of the whole Kherson region continues to come out to the protest of the occupation with the slogans "Kherson - this is Ukraine! », despite the use of Russian weapons and the forceful dispersion of rallies.

#Vucic with #Putin language! “Events in Ukraine” and “Operation in Ukraine” are phrases used by the PR service of the President of the Republic of #Serbia in a statement informing the public about the telephone conversation between Aleksandar Vucic and #Russian President Putin

РЕПУБЛИКА СРБИЈА
СЛУЖБА ЗА САРАДЊУ СА МЕДИЈИМА
ПРЕДСЕДНИКА РЕПУБЛИКЕ

САОПШТЕЊЕ ЗА МЕДИЈЕ

Председник Руске Федерације Владимир Путин је у телефонском разговору честитао председнику Републике Србије Александру Вучићу на убедљивој победи на председничким изборима и на веома значајној победи СНС на парламентарним изборима. Он је овом приликом пожелео председнику Вучићу срећу и успех на одговорној дужности шефа државе и напредак Србије у наредних пет година, уз уверење да ће Србија и Русија сачувати искрено пријатељске односе.

Председник Вучић захвалио је на честиткама и рекао да ће Република Србија наставити да води политику европског пута, уз очување својих искрених и традиционалних пријатељских односа са Руском Федерацијом.

Двојица председника анализирали су економску ситуацију и билатералне односе у сфери енергетике и трговинске размене која је у 2021. и у прва два месеца 2022. године забележила раст, што је добар знак даље успешне сарадње.

Председник Вучић је упознао председника Путина са тешкоћама са којима се Србија суочава приликом увоза сирове нафте и изразио уверење да ће руководства Газпромнефта и Републике Србије, као и партнери из ЕУ, наћи излаз из такве ситуације.

У исто време председници Вучић и Путин су констатовали да дугогодишњи уговор за гас који је имала Србија истиче 31. маја текуће године, те да је неопходно у што краћем временском периоду покренути разговоре о цени, количинама и другим условима набавке овог за Србију важног енергента.

На крају, председник Путин је информисао председника Вучића о догађајима у Украјини и разговорима које су Русија и руководство спровођене како је председник Путин рекао, операције у Украјини, а председник Вучић је упознао са председником Путином већ добро познате ставове Србије и закључке Савета за националну безбедност изражене наду да ће се сукоб у Украјини окончати

With all the consequences and wounds of #Russia's war and crime, #Ukraine will be built even better than it was. But first the war must be stopped, full sanctions and isolation against Russia must be sent, weapons must be sent to Ukraine, and #Putin must end in The #Hague.

Foreign Ministry accuses Serbian president of lying

The Ministry of Foreign Affairs stated that the accusations of the President of Serbia about the involvement of Ukraine in reports of mining Serbian aircraft are not true.

This was stated by Foreign Ministry spokesman Oleg Nikolenko in a commentary to European Pravda.

"We categorically reject the unfounded accusations of the President of Serbia. His statements about the alleged involvement of Ukraine in reports of mining of aircraft of Serbian airlines flying to the Russian Federation do not correspond to reality," he said.

Also, the Foreign Ministry expressed disappointment that Serbia has not yet joined the EU sanctions imposed against Russia for an unprovoked war against Ukraine.

In addition to not imposing sanctions on #Russia, it does not stop the Russian media, allows pro-Russian protests and does not ban flights with Russia. Serbian President #Vucic has gone one step further. He accused the Ukrainian services of "undermining" Serbian planes to Russia.

Serbia has no morals to complain to the West and the EU about pressure, while the real pressure comes from Russia and China. Serbia receives countless funds from the West. Vucic is consulting with Putin, Lukashenko, Assad and Xi Jinping on his decisions.

Why #Serbia is not imposing sanctions on #Russia? Is this Vucic's gift to Putin for his help in the elections in Serbia? Is #Putin blackmailing #Vucic into forming a new government in Serbia? Serbia must be determined if it wants to be a member of the EU or the Oblast of Russia!

A protest against sexual violence and war crimes in Ukraine was held near Russian embassy in #Riga. According to local media estimates, about 200 women with black bags on their heads, hands tied behind their backs and fake blood on their feet lined the street in front of embassy.

“We understand Serbia has a long cultural and economic history with Russia. But this is a moment where there is great risk if we, as a democratic community, don’t send a united message about the consequences of Russia’s behavior in Ukraine,” said Senator Chris Murphy.

Aleksandar Vucic.

“But this is a moment where there is great risk if we, as a democratic community, don’t send a united message about the consequences of Russia’s behavior in Ukraine,” he told reporters. “And our hope is that we will be able to stand with Serbia in the coming weeks and months to send that clear message to Russia.”

Although Serbia voted in favor of three United Nations resolutions condemning the Russian aggression against Ukraine, it has not joined international sanctions against Moscow.

#Russia has repeatedly violated the principles of the #UN Charter and with the #UkraineWar, has sealed the need for its exclusion from the UN. Russia is using the UN to create and maintain conflicts, not to resolve them!

Can a Member State be expelled from the United Nations?

Article 6 of the Charter reads as follows

> "A Member of the United Nations which has persistently violated the Principles contained in the present Charter may be expelled from the Organization by the General Assembly upon the recommendation of the Security Council."

This has never happened.

Article 5 provides for the suspension of a Member State:

> "A Member of the United Nations against which preventive or enforcement action has been taken by the Security Council may be suspended from the exercise of the rights and privileges of membership by the General Assembly upon the recommendation of the Security Council The exercise of these rights and privileges may be restored by the Security Council."

Vucic has used Putin's visit and the gas issue for election campaigns. He frightened the Serbs with an energy crisis and finally introduced himself as the messiah. Unfortunately, Russia has an impact on most of Serbian political parties as we position as opposition.

Russian state propagandist now talks about "war against Europe and the world, once the operation against Ukraine has been concluded". Skeptics did not believe that Russia would attack Ukraine, but it did. Do not be surprised again by Russian aggression against European countries!

In #Russian-occupied #Kherson region, south #Ukraine, the Russian occupiers plan to hold a "referendum" on 27 April on secession of the region from Ukraine

Such votes are illegal under Ukrainian law.

Any "referendum" organized during the #UkraineWar should be considered illegal and its results should not be recognized. #Russia can not realize the #Crimean scenario in #Kherson

Kremlin releases footage showing Putin meeting Defence Min Shoigu. In the video (not clear from when) Putin congratulates Shoigu for the "successful" "liberation" of Mariupol, orders him to cancel the storming of the steelworks in order to "protect the lives" of Russian soldiers

The new 🇷🇸 government should consist only of those who are ready to IMMEDIATELY:

1 Impose sanctions on 🇷🇺
2 Nationalize NIS
3 90% of embassies expelled for espionage
4 Close the 🇷🇺 spy center in Nis
5 Sign a statement that they will work on 🇷🇸 accession to the 🇪🇺 and NATO

For 8 years, Ukraine's military has transformed, allowing front-line personnel to operate creatively & as autonomously as possible. There's a "start-up" mentality among many troops.

That's a big change from the strict, top-down Soviet chain of command — which Russia still employs.

The fact that Medvedev is defending Orban and Milanovic on his Telegram tells you all you need to know about their stance on Russia. p.s. Hungary and Croatia are NATO member states

Понятно, что всегда мало оружия, наёмников и денег. Жадные европейские лидеры не хотят раскошеливаться, как надо. Не ценят Незалежную, которая стоит на переднем крае борьбы с тиранией русского мира. Вот теперь европейских руководителей стали заносить в проскрипционные списки сайта «Миротворец». Туда попали такие лидеры, как президент Хорватии Зоран Миланович и премьер Венгрии Виктор Орбан. Типа не понимают сирые своего счастья, не любят Украину в полную силу. Нате вам, теперь вы наши враги! Страдайте!

> Absurd are the arguments about the "spy activities" of the Russian-Serbian Humanitarian Center, which tirelessly participates in the work to eliminate the consequences of emergencies in the whole region, trains rescuers and firefighters, and provided assistance during the coronavirus pandemic. The doors of the Center are always open to all interested parties.

> The authors also decided to draw an inappropriate parallel between the RSGC and the American Bondstil facility in the province of Kosovo and Metohija. Recall that the Bondstyle base was originally created in accordance with UN Security Council resolution 1244 for peacekeeping "Force for Kosovo", and then was arbitrarily assigned to the United States and turned, among other things, into a springboard for the preparation of the Kosovo "army" contrary to the provisions of this resolution.

Never knew there would be an alternative for Europeans (in #Serbia in this case) to the EU path. But good if #Pavlok remembers now. First step after this "damascus experience" must be the recognition of the youngest state of Europe the Republic of #Kosovo, without further delay

The international community should use the momentum and push Serbia towards an agreement with Kosovo that should be finalized with mutual recognition. Any delay by the EU is an opportunity for Russia to destabilize the Balkans.

The #G7 Foreign Ministers of 🇨🇦 🇫🇷 🇩🇪 🇮🇹 🇯🇵 🇬🇧 🇺🇸 and the High Representative of the 🇪🇺, welcome that the WB stand united in condemning 🇷🇺 war of aggression against 🇺🇦. G7 commend 🇦🇱 🇽🇰 🇲🇪 and 🇲🇰 for fully aligning their foreign policies with the EU, they urge 🇷🇸 to do the same!

We reaffirm our commitment to the European perspective of the six Western Balkan countries to ensure the security, stability and prosperity of the region. We welcome that the Western Balkans stand united in condemning Russia's war of aggression against Ukraine, especially in the UN General Assembly (UNGA). We commend Albania, Kosovo, Montenegro and North Macedonia for fully aligning their foreign policies with the EU, including sanctions and their implementation. We urge Serbia to do the same. We welcome the alignment of Bosnia and Herzegovina with EU restrictive measures on Russia and unilateral alignment of Kosovo with those measures. We must continue to help Western Balkans to reduce their dependency on Russian hydrocarbons and vulnerability to economic coercion.

This is the language of the Minister of Internal Affairs of #Serbia, Aleksandar #Vulin, an #EU candidate country and language of #Russia to destabilize the #Balkans!

Vulin insults again #Albanians with the term "Šiptara"! This is the mindset of #Milosevic and #Vucic!

Another one case of support for Ukraine from Kosovo. Another one reason for Ukraine to recognise Kosovo - a great European country which supports Ukraine on so many fields.

Russia is adding more fuel to the fire as Serbia has to align its policy with the EU. I really hope the Serbian government will debunk this Russian information publicly if this is not accurate. It's disgraceful what [redacted] is doing in the Balkans.

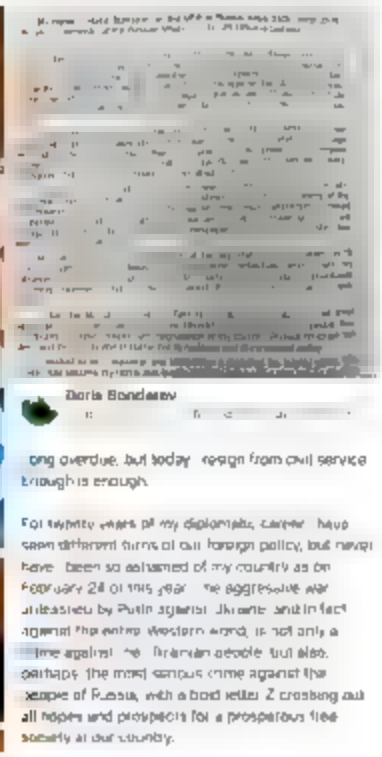
#Russia's Counsellor @mission_russian to the United Nations in #Geneva has resigned .

Boris #Bondarev: "Never have I been so ashamed of my country."

#UN Watch is now calling on all other #Russian diplomats at the UN—and worldwide—to follow his moral example and resign.



Boris Bondarev
ong overdue, but today resign from civil service
enough is enough.
For twenty years of my diplomatic career have
seen different turns of our foreign policy, but never
have been so ashamed of my country as on
February 24 of this year the aggressive war
unleashed by Putin against Ukraine, and in fact
against the entire western world, is not only a
crime against the Ukrainian people but also,
perhaps, the most serious crime against the
people of Russia, with a bold letter Z crossing out
all hopes and prospects for a prosperous free
society in our country.

Florian Bieber stands with @fbieber 9m

But the reason the Serbian government doesn't join sanctions has nothing to do with principles. It is a cynical move to try to keep relations with Putins regime open at all costs

#MEPs through a letter to #Borrell requested for #sanctions against 13 individuals involved in the persecution of #Russian opposition politician and journalist Vladimir #KaraMurza. Are Aleksandar #Vucic, Aleksandar #Vulin, Bratislav #Gasic etc.part of the list for sanctions!?

Josep Borrell Fontelles
Vice-President of the European Commission / High Representative of the European Union for Foreign Affairs and Security Policy

May 2022

Dear Vice-President / High Representative,

Herewith we address you regarding the case of Mr. Vladimir Kara-Murza, a renowned Russian pro-democracy politician, publicist and publisher, who has become a political prisoner and hostage of Putin's regime.

We address you with a request to sanction those involved in Putin's political vendetta against Vladimir Kara-Murza. The EU human rights sanctions mechanism is an appropriate tool to address those individuals of the world at large involved in the politicised persecution. Those individuals who will collaborate with Putin's regime in the persecution of Vladimir Kara-Murza all the while have been made aware that there will be consequences for their actions. We also call for the unconditional release of individuals who perpetrate human rights abuses in the case of Kara-Murza and in other similar cases of politicised persecution in Russia.

Mr Kara-Murza is well known both in Russia and in the West for his criticism of the Kremlin and support for democratic and democratic development in Russia. He actively and successfully advocated for the Magnitsky legislation and raised awareness of the dangers of Kremlin's kleptocracy in the West. Mr Kara-Murza survived two poisoning attempts on his life.

Vladimir Kara-Murza is an outspoken critic of Putin's war against Ukraine and the West since the very beginning of the war. For this and for his decades long fight for democracy in Russia, regime authorities declared him a foreign agent and in April [illegible] opened criminal proceedings against him. He was charged with treason for anti-war activities and other criminal charges. If convicted, Vladimir Kara-Murza faces up to [illegible] years of prison.

Please find the list of individuals involved in the unlawful persecution of Vladimir Kara-Murza attached to this letter.

Sincerely,

delivered transcripts of Russian opposition meetings in Belgrade

In its anti-Western offensive Moscow expects Belgrade to be more regionally assertive. NATO must be ready to respond to any destabilizing provocations in BH, Kosova, or Montenegro

> **Jasmin Mujanović** @JasminMuj
> Bosnian Serb secessionist Dodik says he'll join Vucic-Lavrov summit in Belgrade on the 7th but also claims he will meet w/ Putin on the 17th in Moscow. This represents a major potential escalation in Russo-Serbian threats to the sovereignty and territorial integrity of Bosnia.

Some politicians and intellectuals want to negotiate with Russia, make a deal about [illegible]

In think that is very dangerous. You can't trust the Russian regime, this deal would not be worth the paper it's written on, the Kremlin would soon find an excuse to break it, based on new lies

The #Russian 🇷🇺 ambassador to #Bosnia 🇧🇦 through an address to the Republika #Srpska parliament, has openly acknowledged 🇷🇺 influence in Republika Srpska. He said in his address that Republika Srpska is "Moscow's crucial partner." ‼️ @eucopresident does this mean anything to you? 🤔

#EuropeanParliament 🇪🇺report on #Serbia 🇷🇸:

-Strongly regrets that 🇷🇸 has not aligned with 🇪🇺; sanctions following 🇷🇺invasion of 🇺🇦;

-calls on the newly elected authorities to urgently align with the 🇪🇺decisions against 🇷🇺;

-calls to fight🇷🇺disinfo.-propaganda and hybrid threats!

Serbia: MEPs call on Serbian authorities to bring the country back on track towards EU integration

The report on Serbia welcomes the fact that EU membership continues to be Serbia's strategic goal, while regretting the lack of progress and even backsliding on issues that are fundamental for EU accession. Praising the return to a more pluralistic parliament following the elections in Serbia on 3 April 2022, Members call for progress on the rule of law, fundamental rights, freedom of expression, strengthening media pluralism and normalisation of relations with Kosovo.

The report, adopted by 50 votes in favour, 5 against and 3 abstentions, strongly regrets that Serbia has not aligned with EU sanctions following Russia's invasion of Ukraine and calls on the newly elected authorities to urgently align with the EU's decisions against Russia. Members express concern about the spread of disinformation and call on the Serbian authorities and the European Commission to fight disinformation, Russian propaganda and other hybrid threats in the Western Balkans.

"Following the April 2022 elections and Russia's war of aggression, it is my genuine wish that our partners in Serbia understand the sense of urgency in moving forward on their European path. The 2021 report reflects the political reality in Serbia with a particular focus on the importance of ongoing reforms and alignment. We note that more can be done to move decisively towards the EU and as the European Parliament's rapporteur, I stand ready to work together with the new leadership in Belgrade in order to help achieve positive change for a European Serbia", said rapporteur Vladimír Bilčík (EPP, Slovakia).

Next steps

The reports will now be submitted to a vote in the European Parliament as a whole at the plenary session in July.

To repeat

1 Sanctions on Russia immediately

2 Nationalization of NIS immediately and sale to a strong company from the EU or the USA

3 Send all Russians from the "humanitarian" center in Nis home and sign an agreement with NATO on the joint use of the center

The EU accession process is quite straight forward. As Ukraine and Moldova show, being invaded by Russia gets you candidacy. But Cyprus reminds us that being invaded by Turkey gets you full membership. So the lesson for the Western Balkans is clear.

Or something.

⚡Russian war crimes in Ukraine reminded the world of the genocide in Srebrenica (Bosnia and Herzegovina) a joint statement by the head of European diplomacy Josep Borrel and European Commissioner Oliver Varghelyi on the occasion of the 27th anniversary of the genocide

BiH: Statement by High Representative/Vice-President Josep Borrell and Commissioner Olivér Várhelyi on the 27th anniversary of the Srebrenica genocide

10/07/2022 EEAS Press Team

We honour for the 27th year the memory of all victims and of all those still missing of the genocide of Srebrenica. We stand together in grief with their relatives and friends who survived the genocide.

However, still today we cannot take peace for granted. Russia's unjustified and unprovoked aggression against Ukraine has brought back a brutal war to our continent.

The mass killings and war crimes we see in Ukraine bring back vivid memories of those witnessed in the war in the Western Balkans in the 1990s.

It is more than ever our duty to remember the genocide of Srebrenica as part of our common European history.

As we see the security and stability of Europe and the international rules-based order profoundly shaken, we are reminded of the need to stand up to defend peace, human dignity and universal values. Europe has not forgotten what happened in Srebrenica and our own responsibility for not being able to prevent and to stop the genocide in Srebrenica. Europe failed and we are faced with our shame.

In these dangerous times, we wish to see Bosnia and Herzegovina progress on reconciliation, overcoming the legacies of the past and decisively advance on its EU integration path. Political leaders must turn words into deeds. They need to choose the truth, justice and cooperation over fear and hate to overcome the tragic legacies of the past and build a brighter and prosperous future for the next generations.

There is no place in Europe for genocide denial, revisionism and glorification of war criminals. All citizens of Bosnia and Herzegovina deserve a society where pluralism, justice and human dignity prevail.

The European Union was built as a common peace project and Bosnia and Herzegovina's future lies within the European Union. This will however require all the country's leaders working to put peace, reconciliation, mutual understanding and dialogue at the top of their agenda and engage on the EU reform agenda.

Unconfirmed reports that "Meridian Air Cargo" Antonov An-12BK UR-CIC crashed in northern Greece tonight. Last tracked at 350 ft, not lining up with a runway nearby

Kavala Amigdhaleon AB is nearby, but not lining up

Simple logic: the farther Himars missiles will fly (100+ kilometers), the sooner the war will end. Less civilian casualties, less economic pressure on Europe, less Russian migration and food blackmailing. Himars - a great breaker of Russian arrogance

The threats from Vucic, the blocking of the roads in Kosovo by the criminal groups led by the US-sanctioned Radojcic, the support from Russia, are powerful evidence for the purpose of Serbia and Russia to destabilize the Balkans!

Russia's Vladimir Dzhabarov continues with gaslighting "if Serbia wants, we can deliver weapons" Yeah, you couldn't fly Lavrov to Serbia a few weeks ago because Europe closed its airspace also, he says the West is trying to drag Moscow in the Balkans conflict to weaken Russia.

[Information about a military conflict in Kosovo is going around this evening. Please note this is *disinformation*. Russia has been pushing this narrative since Sunday. Moscow has falsely accused of pushing Russia into a conflict in the Balkans in order to weaken Putin.

Lawyer Cedomir Stojkovic cal ed on the #B A to urgently reveal the names of 4036 #Russ an agents in #Serb a. According to him, they were responsible for spread ng false information about the al eged ethn c attacks in . Al this to spread panic and armed conflict between

BIA DA PRESTANE SA SPAVANJEM
HITNO DA OBELODANI IMENA RUSKIH AGENATA U JAVNOM PROSTORU
I PREDUZME MERE ZA UKLANJANJE RUSKIH AGENATA IZ SISTEMA ODLUČIVANJA REPU BLIKE SRBIJE

Dana 28. maja 2022. godine podneli smo zahtev Ambasadi Ruske Federacije da povuče svojih 4036 agenata iz Republike Srbije kako bi naša zemlja mogla da suvereno i samostalno donosi odluke od značaja za svoju budućnost (https://www.slobodnaevropa.org/a/srbija-aktivisti-protest-rat-u-ukrajini/32972973.html). Među kojima je 27 agenata u Vladi Srbije, sedam agenata u Predsedništvu Srbije, 86 agenata u Ministarstvu odbrane, 64 agenta u Ministarstvu unutrašnjih poslova, svih 113 agenata u Bezbednosno informativnoj agenciji i brojne agente u javnom i tajnom delovanju u verskim organizacijama u Srbiji.

Domaće službe bezbednosti od tada do danas nisu preduzele ni jedan korak da spreče delovanje ovih agenata, a Ruska Federacija je ignorisala ovaj zahtev.

Proteklih nedelja primećena je pojačana koordinacija ruskih agenata u Srbiji koja je kulminirala proteklih dana na pitanju Kosova gde su u javnoj sferi javnosti poturali lažne informacije o navodnim planiranim napadima na Kosovu, navodnom planiranom etničkom čišćenju, a sve kako bi kreirali paniku i strah među građanima Srbije i time izazvali oružane sukobe na Kosovu!

od strane Putinovih agenata i zbog njihovog sejanja panike, straha i mržnje u javnom mnjenju Srbije

Podsećam da je BIA uspostavljena radi očuvanja suvereniteta Republike Srbije koji pre svega podrazumeva očuvanje autonomije odlučivanja, i autohtonost formiranja javnog mišljenja, a to znači sprečavanja stranih agenata da utiču na tamo donošenja odluka u Srbiji i na formiranje javnog mnjenja.

Ova je poziv za BIA da počne da se ponaša patriotski i građanski Srbije konačno počne da štiti od informativne okupacije Vladimira Putina. U suprotnom, ako ovaj istorijski momenat prespava kao što je do sada radila – potreba za njenim postojanjem prestaje.

I wrote yesterday, exactly on that topic

Russia is seeking new wars and Kosovo could be the next one
Instead of seeking a diplomatic solution following the disaster it created with its invasion of Ukraine, Russia is seeking another conflict, so that its aggression will look as second-class news.

Kosovo police have detained Daria Aslamova, a Russian journalist widely suspected of being a Kremlin intel operative. During the Bosnian War she boasted of being gifted a dictaphone by genocidaire Karadzic & wrote favorably of his extremist war aims.

For those who think that #Russia's ▯▯war in #Ukraine ▯▯ can be stopped with diplomacy and that "Russia should not be humiliated"! #StopPutin

Dumping intellectual waste on Twitter is a problem. I believe 2 gasless winters will be sufficient to cleanse Germany and EU from all sorts of evil. Russia is not responsible for the boomerang effect of EU decisions taken in haste, under US pressure, and out of Russophobia.

It's important to remember, when RUSSIA says the word Nazi, all they really mean is Anti-Russian. They don't even recognize anything else the Nazis actually stood for that made the actual Nazis

In #Belgrade - #Serbia , another mural has appeared in memory of Darya #Dugina, who supported #Russia's genocide in #Ukraine - the daughter of #Putin's ideologue #AleksandrDugin! Is this what a candidate country for the #EU looks like?

The scandal of the #Serbian Interior Minister #Vulin with the member of the Serbian Gendarmerie with "Z" sign it's not a coincidence! Asceric and Vulin are great friends and pro- #Russians !

John Jackson @JohnJac49044910 11h

⚡ The member of the Serbian gendarmerie that was seen standing next to Minister Vulin with a Russian "Z" sign on his helmet, is Milorad Asceric gendarmerie instructor & good friend of Minister Vulin as well

Why is the flag of #Serbia placed together with the flags of the countries that support #Ukraine ? While Serbia has not imposed sanctions on #Russia and openly supports it against Ukraine!

There has been a rumour going around in since February that they are secretly shipping the ammunition for the kalashnikovs to And that plane crash in is also said to be related

2 · 1

James Japp @James_Japp · 17h
Serbian ammo was found in Ukraine, manufactured after 2014. And there were very likely shipments after the start of the war
But this is most likely just for profit.

Officially Serbian government support Ukraine in this military conflict. UN votes and publicly condemning aggression proves that.

Sanctions aren't proof of support to Russia in this war

And yet not again the murder of tens of thousands of Ukrainians for nothing. By this stage sympathy has run out. The Russians who could, left.

Perhaps I should add that I still hope this uprising swells, whatever the reasons for it. Many will still be the ones who protested before and fell silent.

This does not look like a population that is ready to fight for its leader nor the narrative

Even if Putin is successful of forcing 300k into service, they wont be a force to be worried about. The morale would be lower than the guys that defended Izium a couple of weeks ago

Putin has forced this war not only on Ukraine but also on its people. Russian troops' morale is so low, mobilized soldiers will surrender without a fight.

White flags would be more useful

"We have destroyed the professional Russian army, we will also destroy the amateur. We will destroy everyone who comes to our land with weapons - whether voluntarily or by mobilization."

Daniel, he was rejected exacty like that in his youth, than he got super vengeful, accepted his sociopathy as his biggest strength and started working hard on the vengeance process. He is punishing us all for the original pain of being excluded

What danger?!? And why are you linking the "serbian nationalism" to Russia?!? Russia and Serbia have a long historic brotherhood!! What's the purpose of your tweet? To divide the serbian and montenegrin people? Don't write things you have no clue about!

The free world is at war with Russia and Belarus. So let's just add Serbia to the list. If I were a Serb I'd be ashamed to put in this group. Russia, Belarus, Iran and North Korea. That's quite a list there you want to join.

These are all descendants of Chetniks from WWII, collaborators of the Nazis and glorified war criminals from WWII. Maca of the Pop Church of Serbia slaughtered women in Pljevlja in WWII and was sentenced to death for that, and the Church of Serbia declared him a saint in 2005

Unfortunately, under Vucic the propaganda minister of Milosevic Serbia has returned to its chauvinist roots so the Albanians, Montenegrins, Bosnians and Croats must cooperate to contain this plague

I totally agree and urge those that know that serbs are coming in Balkans to arm their countries and their people because a new war is in making. Serbs have obviously forgotten the 90's and like nazigermany after the WW1 wanting to redeem themselves and their third reich

They are VOLUNTEERS. This means the Serbian state has nothing to do with this. So I don't get what this has to do with Serbia being an EU candidate. And Serbia won't get into the EU anyways because of Kosovo. Just like Ukraine won't get into the EU because of Donbas.

Is this how #Vucic tried to stop World War III? Is this what "peaceful barricades" looks like? These are trenches for attacks against the Kosovo Police #EULEX and #KFOR, opened by the criminal and security structures of #Serbia in the north of #Kosovo ordered by Vucic!

Is this how #Vucic tried to stop World War III? Is this what "peaceful barricades" looks like? These are trenches for attacks against the Kosovo Police #EULEX and #KFOR, opened by the criminal and security structures of #Serbia in the north of #Kosovo ordered by Vucic!
